June 2005 HTML - Invitation To NCSLI MET/CAL User Group Meeting

10 June 2005 - 10 January 2006

The NCSLI Software User group meeting is a great place for customers to learn more about getting the most out of MET/CAL software. You don't have to be an expert programmer to attend. Some great prizes available. Please share this HTML with your customers.

8508A Technology - An Inside Look

10 June 2005

This is a PDF copy of a powerpoint presentation that describes the technical aspects of the 8508A. It illustrates the key capabilities of the meter in all the different functions of measurement. It also includes a technical review of the 8508 compared the both the 1281 and 3458HFL, showing the technical improvements over each product This illustrates the value of the 8508A and supports the additional price over the 3458. It also shows that it is not simply a rebadged 1281.

Photo Tour Of The 8508A Manufacturing Cell & Processes

10 June 2005

This is a PDF file of a powerpoint presentation showing the manufacturing processes around the 8508A Reference Multimeter. It shows the manufacturing cell's work in assembling, testing, and calibrating the 8508A. This is an excellent tool to use to show customers the quality processes with the 8508A.
